

Command-line SMS-Delivery Tool

Index:

Introduction:3

Usage:3

Introduction:

SMSSender.exe is a stand-alone command-line application designed for simple, single SMS delivery. It is a Windows 32-bit application.

Usage:

```
smssender.exe username password destination "message"
```

Parameters

Username: Your TraiTel Telecommunications username. This field is case-sensitive and must not contain spaces.

Password: Your account password. This field is case-sensitive and must not contain spaces.

Destination: The full **international** cellphone number to which you wish to send an SMS. This field **must not** contain any special symbols or spaces, including +, () or -. An example of a valid destination in Australia is: 61401234567.

The following destinations are **not valid**:

+61401234567, +61(04)0123-4567, 610401234567

Message: The message you wish to send. This message **must** be enclosed in quotation marks "", it may contain any special symbol except for quotation marks. This field may exceed the SMS 160 character limit; in which case the message will be divided into multiple messages, each of which will incur a charge.

Return values:

If you are running this programme from within a batch file, the programme will return one of the following error codes after execution:

- 0: The SMS was accepted for delivery.
- 101: One or more of the four required arguments was missing.
- 102: Too many arguments were supplied.
- 201: This error indicates that a problem occurred while trying to access the Windows Sockets 2.0 library. The library is either incorrectly installed or it is missing from your system.
- 202: This error indicates that a connection could not be established to traitel.co.nz. This error will generally occur when the system is not connected to the internet.
- 301: The username or password supplied is invalid.
- 302: Insufficient funds to send the SMS message. In order to add credit to your account, log in at <http://www.traitel.com.au> , select "Billing" then "Add Funds".
- 303: Premium service error. Messages can only be sent to mobiles. Premium services and non-mobile numbers are not allowed.
- 304: Service disabled. The SMS service has been disabled on your account. Please contact customer service for more information.
